## EXPERIENCE

---

### Web Developer

Oct. 2019 – Present

*ACT Web Services, Self-employed*

*Vancouver, BC*

- Collaborating with diverse clientele to design and develop personalized portfolio websites using Squarespace, WordPress, and Webflow among other website builders
- Enhancing website deployment efficiency by 40% through strategic optimization on Vercel, Hostinger, and Netlify
- Customizing WordPress themes using PHP, allowing easy installation of third-party JavaScript libraries like GSAP to create advanced animations

### Internet Software Architecture Teaching Assistant

Jan. 2024 – Present

*British Columbia Institute of Technology, Part-time*

*Burnaby, BC*

- Creating thought-provoking quizzes for students regarding internet software architecture, aiding students' knowledge retention
- Grading the lab submissions of over 90 students, ensuring concepts learned in class are practiced
- Concepts: NodeJS, Asynchronous Operations, REST API Architecture, Fetch API, XMLHttpRequest, CORS, Postman, Databases

### Full Stack Developer

May 2018 – Jul. 2019

*GV Hotels, Full-time*

*Cebu, Philippines*

- Utilized HTML, CSS, JavaScript, C#, and SQL to optimize hotel-owned proprietary software and website
- Restructured the human resource management system to facilitate easier accessing and handling of information for a workforce of over 150 employees, improving HR processes by 32%
- Played a pivotal role in the development and successful launch of a dedicated booking website catering to partnered travel agencies, increasing business opportunities by 23% and revenue by 17%
